

# MISSOURI MOB BURNS THOUSANDS AUTO WORKERS AT WORK BELIEVED ATLANTIC CLAIMS LIVES TWO FLYERS

### FORD COMPANY HAS STARTED 107,000 TO WORK THIS WEEK

### CHEVROLET PUTS ON 30,000; OTHER COMPANIES ANNOUNCE INCREASES

DETROIT, Jan. 12.—(P)—Detroit is re-awakening today. The city of automobiles has been in a condition of industrial hibernation for more than a year. Factory wheels have turned only intermittently. There have been gaps in assembly lines at the numerous automobile factories. But the go-ahead signal has been given, and the ever hopeful population of this essentially youthful community believes that "things will be different now."

The Detroit street railways made preparations to transport thousands more workers to their jobs today than went to work last Monday.

Most of these, of course, are of the thousands laid off December 18, when the inventory period began, and most of them are going back to work on part-time schedules. Nevertheless there is a more optimistic feeling than has existed for many months.

Announcement was made that 75,000 employees of the Ford River Rouge plant had been notified to begin work today. Another 32,000 Ford workers were to report at other plants in the Detroit area. Other automobile factories have

### NATHAN STRAUS IS MOURNED IN MANY PARTS OF WORLD

### PATRIARCH OF AMERICAN JEWRY AND BENEFACOR OF CHILDREN PASSES

NEW YORK, Jan. 12.—(P)—Nathan Straus, patriarch of American Jewry and benefactor of little children the world over, died in his sleep yesterday in his 83rd year.

After the death of his wife, Mrs. Lina Guthrie, ten months ago, his health sank rapidly and he had been restricted to a wheel chair since his return from Europe last year.

For his philanthropies in the conservation of infant life, establishment of Jewish homeland and relief work of the World War, the name of Nathan Straus was revered wherever mankind suffered. In the United States Germany, Palestine, Cuba, Poland and the Philippines particularly he poured forth his resources to aid the underprivileged of every race and creed.

Born in Rhineish Bavaria on January 1, 1848, Nathan Straus was brought to America as a boy of 14 by his father, Lazarus, and settled in Talbotton, Ga. When the civil war ruined his father's business, the family moved to New York and the elder Straus and his

### Start Work on Rescue Bodies Slide Victims

GUAYAQUIL, Ecuador, Jan. 12.—(P)—Rescue operations at the site of a landslide which Saturday covered a half mile of railroad track near Huigra, on the Guayaquil-Quito line, were speeding today but with almost no hope that any of the 175 men known to have been buried would be found alive.

The railroad company said four weeks would be needed to clear the tracks and reestablish train service over the line, which connects Guayaquil and the national capital.

One injured man was found near the end of the cut and one body was located, but excavation of hundreds of tons of earth was believed necessary before the other bodies could be recovered.

### FANATICS SPURRED BY RED PROPAGANDA RAIDED LUZON VILLAGE; BURN U. S. FLAG

MANILA, Jan. 12.—(P)—A staff correspondent of the Manila Tribune today reported religious fanatics who raided the Central Luzon village of Tuyug yesterday burned the village and the American flag after capturing the city hall.

"Fanaticism, spurred by red propaganda," he added, "seems to have been the underlying motive of the conflict, in which several persons were slain."

An official report to constabulary headquarters here by Major J. C. Quimbo, intelligence officer, however, said: "Physical evidence seized, such as 'anting-anting' (charms worn by the fanatics) showed fanaticism was the motive."

Constabulary officials admitted local trouble may have been the immediate cause.

The fanatics, known as "Col-

### NEW GRAND JURY RETURNS NUMEROUS TRUE BILLS MONDAY

Twenty-three indictments were returned Monday noon by the January term grand jury and the investigation recessed until Monday, Jan. 26.

Those indicted were T. J. King, murder; S. Hayes, negro, forgery, two cases, and E. W. Jordan, possession with intent to pass forged instruments, 20 cases.

King, aged 70 years, was indicted for murder in connection with the fatal shooting of his wife, Mrs. Ella King, 58, last month. King was later tried on an insanity charge in the county court and was found "sane" by the jury.

King was still in the P. and S. Hospital Monday afternoon when he has been since the time of the tragedy when he received severe injuries about the head, self-administered with a knife and flatiron. He has not been arrested on the murder indictment early Monday afternoon, and it is expected that bail will be provided.

S. Hayes, negro, is in the county jail. He was arrested in Beck County by Sheriff Poguehouse last week and returned here.

E. W. Jordan, against whom 20 indictments were returned for possession with intent to pass forged instruments, is now in the Limestone county jail at Groesbeck. He has been convicted several times in Texas courts, including the local court, and given several "life" sentences in the penitentiary, but has not been delivered to the penitentiary agent. It is expected that he will be returned to the local jail and tried in the local court within the near future.

### NEGRESS SLAIN FOR ALLEGED CASTING OF HOODOO ON NEGRO

Oneita Jones, aged 19, negress is dead and Millard Cranford, aged 20, negro, is in shooting affray shortly after noon Monday at 611 South Thirtieth street.

The negress was struck by the lead of a single-barrel 12 gauge shot gun, fired from a car, in left breast and penetrating the body. She resided at 719 East Twelfth avenue. The body was also powder burned.

Immediately after the shooting, Cranford came to the city hall and surrendered to city authorities. He was fingerprinted and photographed and will be transferred to the county jail.

According to Chief of Detectives Bruce Nutt, the negro is alleged to have fired the shot to break a "hoodoo" that he had been unable to avoid, cast on him by the negro.

Sheriff Rufus Pevhouse, Deputy Sheriff Jack Floyd and Chief of Detectives Nutt conducted an investigation. A formal complaint on a charge of murder is expected to be filed Monday afternoon, and the case will be presented to the Navarro county grand jury when it reconvenes on January 26.

### HOUSES TREMBLED BY QUAKE

ISTANBUL, Turkey, Jan. 12.—(P)—Sixty of the 100 houses in the little village of Chavouschukuey in the volcanic regions near Konia about 150 miles from Angora, were destroyed yesterday by an earthquake. There were no deaths. The tremors continued today, inflicting some damage also in the village of Argithane.

### FEARED TRADEWIND AND ITS OCCUPANTS LOST ON OCEAN HOP

### WOMAN AND MAN FLYERS DUE IN AZORES SUNDAY MORNING UNREPORTED

HORTA, Island of Fayal, Azores, Jan. 12.—(P)—The storm-swept Atlantic was believed today to have claimed the lives of two more transoceanic fliers.

Hope for the safety of Mrs. Beryl Hart, 27-year-old widow, and Lieutenant William S. MacLellan, who left Hamilton, Bermuda at 11:15 a. m. (EST) Saturday for Horta in their monoplane Tradewind, dimmed fast with the passing hours.

Anxious watchers here were gloomy as the hours passed with no word from the little white ship. At 1 p. m. it seemed impossible that the two fliers could have weathered the storms which have been sweeping the islands.

Steamers passed and put into Horta reporting no word of the

(Continued on Page 9)

### MONTGOMERY BANK ROBBED BY LATEST BURGLARY METHOD

### FIVE MEN AND WOMEN ARE LATER ARRESTED IN HOUSTON; MONEY RECOVERED

MONTGOMERY, Jan. 12.—(P)—Thugs cut the vault of the First State Bank here sometime last night and, using water pressure to float out the currency, and escaped with an amount estimated officially at between \$4,000 and \$5,000.

They entered through the side wall, which three times before had afforded access to burglars on like missions, and through the rear wall, which was entered in the last burglary six months ago.

They used a torch to cut the safe and vault and sent in a stream of water to float out the currency. They raked out the silver.

Two one dollar bills and a few coins were left in the safe.

The authorities looked toward Houston, where five men and a woman had been arrested as suspects, to a possible solution.

Six Held in Houston.

HOUSTON, Jan. 12.—(P)—Five men and a woman were arrested in a Julian street bungalow here today and held by police in connection with the burglary of the First State Bank of Montgomery, 43 miles away.

Money, in currency and silver, totaling almost as much as the loot—between \$4,000 and \$5,000—was recovered, headquarters said, without specifying the

(Continued on Page 3)

### Sweeping Cuts In Retail Price Tires Announced

AKRON, O., Jan. 12.—(P)—Announcement of sweeping cuts in retail tire prices were made today by three of the largest Akron rubber companies. The General Tire and Rubber company announced a reduction of 7-12 to 12 per cent on all passenger tires, but said no cut in truck tire prices has been made or is contemplated.

The B. F. Goodrich company issued a statement that it "has revised its tire price schedule to meet the reductions announced last week by competitive companies."

Official confirmation was obtained of the 6-12 to 12 per cent credited to Firestone Tire and Rubber company last week.

The Seiberling Rubber company has announced slashes on all tires of the mail order grade but has stated higher priced lines will be practically undisturbed. The Good-year and Mohawk tire manufacturers probably will issue statements later today.

### Fortson Grocery Co. Sustains Heavy Loss By Fire Early Sunday

Fire of undetermined origin practically destroyed the stock and did extensive damage to the building of Fortson Grocery Company early Sunday morning, with the loss estimated by Sylvain McDaniel, vice-president and manager of the company, at \$125,000 to \$130,000 practically covered by insurance.

The blaze was discovered as it broke through the roof between 4 and 5 o'clock Sunday morning, and Corsicana's fire fighting equipment was massed on the scene immediately. Two pumps and seven lines of hose fought the fire for about four hours before the flames began to diminish.

Flames were breaking through skylights and ventilating openings when the department reached the scene, and an attempt to attack the fire from the top of the building was abandoned after several attempts had been made to cut through the roof and the firemen had been driven back by the flames.

Two carloads of matches had

### Six People Seriously Ill Result Monoxide Gas Fumes From Bus

### New York Still Has Vestige Of Rural Activity

NEW YORK, Jan. 12.—(P)—The nation's largest city has not entirely lost its rural vestiges.

The 1930 report of the health commissioner which Dr. Shirley W. Wynne has just presented to Mayor Walker shows permits were issued last year for such things as smoke houses, horse-shoeing, goats and well water.

One of the important functions of the health commissioner as demonstrated by the report is the censorship of food brought into the city. Commissioner Wynne estimated that \$7,000,000 worth of good is prepared annually in New York City, much of it for consumption in other parts of the United States.

### WOODRING TAKES OFFICE AS KANSAS 25TH GOVERNOR

TOPEKA, Jan. 12.—(P)—In an outpouring of popular enthusiasm, Kansas today called a new governor to the head of the state's executive department. To Harry H. Woodring, 41-year-old bachelor, world war veteran and democrat, went the honor of becoming the state's twenty-fifth chief executive.

Followers from all parts of the Jayhawker state, augmented by many from Woodring's home town, Neodesha, gathered to see the former state commander of the American Legion take the office of Clyde M. Reed, republican, who was defeated in the primary.

Miss Lida Woodring, sister of the retiring banker who defeated Frank Hauke Council Grove republican, by a plurality of 251 votes in the November election, shared attention with her brother, Miss Woodring, who had been hostess at the executive mansion.

### Two Brothers Under Arrest For Murder

MIAMI, Okla., Jan. 12.—(P)—Two brothers, Frank and John B. Chandler, were under arrest today in connection with the death of Lefoy Mayes, 28, at a rural dance near Afton on December 20.

Frank Chandler, 25, surrendered and was brought to the Ottawa county jail. John Chandler was arrested Friday in Kansas City, Kas.

Officers said witnesses told them that John Chandler shot Mayes and Frank stabbed him as the result of an old feud.

### THOUSANDS ARE MEETING DEATH IN SEVERE COLD WAVE

### ALL OF NORTH CHINA IN GRIP OF SEVEREST WEATHER IN 38 YEARS

SHANGHAI, Jan. 12.—(P)—Winter, in this part of the world the harbinger of death and intense suffering, today gripped virtually all of North China, Manchuria, Siberia, Korea and Japan. Paralyzed communications crippled railroads and took an undetermined toll of human life and property.

Chinn, from the Yangtze river northward, lay under a mantle of ice and snow, while frigid blasts from the north added to the depth of the white blanket with a mixture of snow and sand from the barren steppes of Mongolia.

It was feared thousands had perished from the intense cold in Northern China alone, dispatches describing the findings of scores of frozen bodies in the streets of

(Continued on Page 9)

### LOBBYISTS BUSY GETTING LINE ON PROPOSED MEASURE

### FORTY - SECOND LEGISLATURE WILL CONVENE AT NOON TUESDAY

AUSTIN, Jan. 12.—(P)—Projected legislation was flying thick and fast today as members of the 42nd legislature prepared for the opening, tomorrow noon of the four months regular session.

Lobbyists were on the scene early scouting around the capitol corridors and delving into projected measures.

Work of organizing committees was expected to occupy both houses for the first few days.

The last message of Gov. Dan Moody was in the hands of printers and probably will be read Wednesday.

Jockeying for chairmanships of the major committees of the senate came to a standstill Saturday with tentative announcement of the selections of the lieutenant-governor-elect. Leadership of house committees, however, still was an open question. Fred Minor of Denton, prospective speaker, declining to make any announcement.

(Continued on Page 9)

### Lost Aviators Meet Hardships Australia Wilds

ALICE SPRINGS, Northern Territory, Australia, Jan. 12.—(P)—Two aviators lost in the Central Australian desert for more than two weeks were brought here today by rescuers with a story of how they had lived on milled milk tablets, boiled grass and even tadpoles now and then while they wandered toward civilization through a trackless wild.

They are Captain W. L. Ptemburgh and S. J. Hamber, who started out for some mining properties last December and were forced down in the desert on Dec. 20. A searching plane located them on Saturday and a rescue party in automobiles went out to get them. They were weak and exhausted today but otherwise uninjured.

### CONFESSED SLAYER SCHOOL TEACHER IS LYNCHED MONDAY

### BLACK TAKEN TO SCHOOL HOUSE WHERE ATTACK OCCURRED AND BURNED

MARYVILLE, Mo., Jan. 12.—(P)—Chained to the roof of the Garrett rural school in which he was alleged to have assaulted and murdered Miss Velma Colter, 19-year-old teacher, Raymond Gunn, negro, was burned to death by a mob which made a funeral pyre of the building today.

Gunn was marched into the school house and to the spot where the bruised body of the young teacher was discovered. Those of the throng about him who were closest said the negro confessed his guilt.

He was then taken to the roof of the building. He was placed across the ridgepole. Holes were chipped in the roof and gasoline poured over the floors and on the walls. A member of the mob applied a match.

Gunn was calm throughout. Those close to him said he was not injured during the march to the school, although his clothing was stripped to the waist.

At least 2,000 persons stood around the school building. Face down across the ridgepole, Gunn pushed himself up and waved at the crowd which contained hundreds of women. Then he sank again to the floor.

One long, piercing shriek arose above the crackling of the flames as they played about his head.

The crowd, orderly throughout, stood about the four corners where the school was located until the white, one-room frame building was reduced to ashes.

Second Attack on Woman.

The negro, an ex-convict, who had served a prison term for an

(Continued on Page 9)

### ANOTHER BATTLE LOOMS IN SENATE ON TARIFF BODY

### POWER COMMISSION ROW AT STANDSTILL, BUT STILL TURBULENT

WASHINGTON, Jan. 12.—(P)—Four of President Hoover's six tariff commission nominees were quickly confirmed by the senate today without a record vote.

A contest was started against a fifth, Edgar B. Brossard, republican of Utah.

Those approved were Henry P. Exton, democrat, Pennsylvania, republican chairman; Thomas W. Page, democrat, Virginia; John Lee Coulter, republican, North Dakota and Alfred P. Dennis, democrat, Maryland.

Meanwhile, the senate's controversy with President Hoover over three of his nominees to the power commission—already confirmed—continued to simmer.

Senator Dill, democrat, Washington, proposed that the interstate commerce committee call Chairman Smith and Commissioners Garsaud and Draper for an examination on Saturday. The president rejected a request that their nominations be returned.

Administration members of the committee turned against the proposed action because the votes in the committee against it.

Senator Wheeler, democrat, Montana, prepared to seek a veto against salaries for the three commissioners as the lone courage open to the senate in the dispute over the right of the commissioners to hold office.

A vote on the sixth member of the tariff commission, Lincoln Dixon, democrat, Indiana, had to await disposal of the Brossard nomination. No opposition to Dixon was in sight.

Senator Harrison said he opposed Brossard because the man was "too close to the sugar interest," and would boost the tariff on sugar if he had the power to do so.

### Galveston Planes Seek Missing Men

GALVESTON, Jan. 12.—(P)—Twenty-five pilots of the Third Attack group at Fort Crockett today were searching for Lieut. J. E. Grasty and Corporal Philip Shipman, who had not returning to the fort after leaving a hunting camp on Matagorda bay last night. No trace of the plane the men were flying had been found at noon.

## HILLSBORO QUINT AND HIGHLANDERS WILL BE OPPOSED

### JUNGLEBEASTS ARE BEING GIVEN PLENTY OF WORK

BY DOUGLAS

After getting away to a flying start in their two opening practice games of the season here, the Corsicana Tiger loopers will be in action twice this week on foreign courts which should prove whether the Tigers are to be serious contenders for the district 5 interscholastic league championship this year.

The first game on a foreign court will be played Wednesday evening against the Hillsboro Eagles on the Hillsboro floor. Hillsboro got away to a much earlier start in basketball training due to the fact that the Eagles' football season ended earlier than that of the Tigers. The Eagles have been playing a number of practice games with other strong teams during the past several weeks, but their record is not undefeated.

**Large Court.** Hillsboro has a large court and this fact may handicap the Junglebeasts as they have been practicing on a court which is much smaller than the one at Hillsboro. M. C. A. court but local cage enthusiasts are of the opinion the Tigers will give an excellent account of themselves.

The second game scheduled for this week will be against the Highland Park club in Dallas Friday night. The Highlanders are conceded among the leading high school quints of Dallas and the Bengals will be fighting to maintain their winning streak over the Dallas fives. It will be remembered that the Bengals had little trouble in trouncing the Oak Cliff Leopards here Friday night, 42-20, excelled the Spotted Kitties in all departments.

**Hard Training.** Plenty of work will be dished out to the locals Monday and Tuesday nights under the direction of Coach O. P. Douglas and a much larger number of players will be in the court here in the next game to be played in Corsicana next week.

The new gymnasium at the Junior high school building is expected to be completed this week, according to present plans, and the next game here will be played on the new court.

Coach Douglas will be forced to change his style of play and teaching when any of his players are transferred from the small Y. M. C. A. court to the new 48-44 court.

**New Gym Opening.** No announcement has been made whether any formal dedication ceremonies will be held in connection with the opening of the new gymnasium. With the opening of the new gym, a dream of many years of Coach Douglas and many of the court enthusiasts of Corsicana may be realized. Many are of the opinion that the lack of a regulation court here for the Tigers to train and play on has caused them to lose at least one championship on the courts due to the fact that the team was severely handicapped both in offense and defense on the larger courts after playing the first portion of the season on the smaller Y. court.

The Tiger cagers are always a fighting bunch, and give excellent account of themselves in the race. At the present time, the Tigers, 1930 champions, Bardwell of Ellis county and Burdick of Johnson county are being touted as contenders, with Hillsboro Eagles a likely challenger of merit. Little has been heard concerning the basketball prospects from Bosque county, and other members of district 5.

## MONTGOMERY BANK ROBBED BY LATEST BURGLARY METHOD

(Continued From Page 1.) amount. Likewise, acetylene torches were found at the house.

The Montgomery thugs gained entrance through a sidewalk and cut the safe with torches.

Of the six held, five gave Houston addresses and one said he was from "anywhere in Galveston."

An anonymous telephone call to Police Captain Kirk Irwin, who had kept the burglars under observation for some time, led a squad to the house.

Two officers went to the front door, two to the rear and others stationed themselves at strategic points.

A police lieutenant, one of the first to enter, said he found "stacks of bills and coins all over the place."

One canvas bag of money, he added, was "ushed half way under a bed."

"There was a wad of bills in the tank of the bathroom and another in a bag in the bathroom." The men offered no resistance.

## SPORT NOTES

By PAUL MOORE, LIGHT SPORTS EDITOR

T. C. U. and S. M. U. are topping the percentage column of the Southwest conference basketball race at the present time with one victory and no losses each, having defeated the Rice Owls during the past week end. The Texas Longhorns and Arkansas Foresters divided their pair of contests while Texas A. & M. College and Baylor University have not played a conference opponent.

This week's schedule in the conference has included a number of attractive matches as follows: Monday and Tuesday, Rice vs. Arkansas at Fayetteville; Friday, Texas vs. T. C. U. at Fort Worth; Saturday, Texas vs. S. M. U. at Dallas; Baylor vs. Rice at Houston. It will be noted that all members of the conference will be in action this week and the race will be in full progress. The Owls are practically out of the running.

The North Texas A. A. U. high school girls' basketball championship tournament will be held at Mesquite, Texas, Feb. 19-21, and A. A. U. officials and Mesquite citizens are making plans for the staging of the tournament. Mesquite has a newly completed gymnasium, conveniently located, and all high school girls' teams are invited to compete. Between 20 and 25 teams are expected to be entered in the tournament. Further information on this tournament can be obtained by communicating with A. J. Cook, Mesquite, Texas, or with the secretary of the Texas division, Southern A. A. U., City Hall, Dallas.

The new gymnasium for the high school is expected to be completed this week.

All members of the Central Texas Sport Writers' Association have voted against the proposed 10 semester rule proposed by some for the University of Texas Interscholastic League.

The Tigers have two games this week, but both are on foreign courts. On Wednesday evening, the Bengals will invade Hillsboro to oppose Hillsboro High Eagles, and on Friday night, will oppose

the Highland Park club in Dallas. The Tigers are fast getting into condition and have whipped a smooth-running combination together which has not been defeated this season.

There is one handicap that the writer sees for the Junglebeasts and that is many of the Tigers are not tall enough, and will be seriously bothered when they oppose a tall, fast club. The Tigers will have speed to burn, with a fast-breaking offense, an airtight defense, but short boys are at a loss against the rangy type.

It won't be long until Manager Hap Morse of the Dallas Steers and Business Manager Bob Taylor will trek to Corsicana to open their spring training camp here on municipal park. The club trained here two years ago when Milton Stock was the skipper and the club later won the Texas League title.

Basketball coaches of Navarro county will meet here Saturday afternoon with the executive committee of the county interscholastic league for the purpose of making plans for the annual tournament. All of the cage mentors of the county are urged to be on hand. The meeting will be held in the office of D. D. Hanks, county superintendent, at the court house, Saturday afternoon at 2 o'clock.

Iowa State and Nebraska were topping the percentage column of the Big Six conference today, Iowa State slipping up on the University of Oklahoma Sooners to win, 35-25, while Nebraska was showing Missouri, 1930 champion, 42-32.

Drake and Oklahoma A. & M. College, considered as teams not in the championship running in the Missouri Valley conference, are topping that loop after the opening week's play. Creighton and Washington, co-holders of the 1930 championship, both met defeat.

Ohio State, Chicago, Northwestern and Minnesota survived their opening battles in the Big Ten case conference race last week.

Officials—Allen, referee; Dresser, umpire; Jeffries, timer; Moore, scorer.

Miss Ruby Lee of Cleburne is visiting her sisters, Mrs. Peggie Eckert and Mrs. J. P. Welch.

Adrian Pool, junior member of the state board of control, and Mrs. Pool were guests of the State home Sunday.

During the final quarter, a team of substitutes were in the game for the Tigers, and that was the only period the Dallasites played the locals on even terms, accounting for ten points while the Bengals were only counting four.

Starting early in the melee, through the sensational goal shooting of Roy Pollard, center, the Corsicana Tigers, led by Pollard, were in the lead and were never overtaken. The first five points for the locals were made by Pollard, and Crowther and Fryor then looped a field goal each. Cadenhead for Dallas tossed a free goal and at the end of the first quarter, the Tigers were leading, 11-1.

Corsicana was ahead, 23-7, at the half-way mark, and the score was 38-10 at the end of the third quarter.

For the visitors, Truelson, elongated center, who will be remembered as the tall end on the football team, was the outstanding player of the club and also was high point man for Dallas with nine points. Pollard, center for Corsicana, was high point man with 18 during the three periods he performed, his goal shooting being sensational and accurate.

Fred Hightower, connected safely four times for field goals and the guarding prowess of Fryor and Clark was fine.

Cadenhead, guard, and Goodenough, forward, also played good games for the visitors, both were guards on the Cliff fight team that Corsicana defeated 26-0 in their bi-district contest.

High school games in the future will be played on the new high school gymnasium at the junior high school building which will be ready for use within the next few days.

"The Tiger Teasers," independent high school orchestra, furnished music for the occasion.

**The Box Score.**

Plans are being made by officials looking toward the Navarro county University of Texas Interscholastic league season, and a meeting of the executive committee and basketball coaches will be held Saturday, Jan. 17, at 2 p. m. in the office of Dan D. Hanks, county superintendent. In the Navarro county courthouse for the purpose of making plans for the basketball tournament as well as the regular interscholastic league meet.

The county meet will be held at the State Olympian's Home this year, March 20-21. W. T. Brumblow, director-general, states. The county meet was held at Frost in 1930, and weather conditions interfered considerably. The meet had been held at the State Home for several years prior to that time.

Director-General Brumblow of the State Home faculty was elected at the Navarro county teachers' institute last fall here and was empowered to complete the appointment of the executive committee. The executive committee is composed of Mr. Brumblow; O. K. Vinson, director of debate, Navarro; C. E. Butler, director of declamation, Embury; W. E. Yowell, director of extemporaneous speaking, Zion's Rest; Miss Julia Kiber, director of spelling, Powell; Miss Irene Moore, director of essay writing, Corsicana; LeRoy Crabtree, director of athletics, State Home; Miss Ruth Carden, director of one-act plays, Kerens; Supt. D. D. Hanks, rural schools, Corsicana; Miss Myrtle Nunn, director of music, Corsicana; John E. Davis, director of arithmetic, Petty's Chapel.

Schools to compete in the interscholastic league must pay the membership fee not later than January 15. The schedule for membership in the league is for high schools—enrollment, 1 to 19, \$1; 20-49, \$3; 50-75, \$4; 80-119, \$5; 120-149, \$6; 150-199, \$7. Other schools—Enrollment 1-99, \$1; 100-199, \$2; 200-299, \$3; 300-above, \$4.

Director General Brumblow states that it is necessary to have funds to operate the league, provide medals, cups, judges, etc. The league has a deficit of about \$50 from last year, and as there is no way to secure this amount other than from donations by loyal schools, it is hoped that schools able to do so, aid in wiping up this deficit.

## PLANS OUTLINED INTERSCHOLASTIC LEAGUE SEASON

### BASKETBALL COACHES WILL MEET IN CORSICANA ON JANUARY 17

Plans are being made by officials looking toward the Navarro county University of Texas Interscholastic league season, and a meeting of the executive committee and basketball coaches will be held Saturday, Jan. 17, at 2 p. m. in the office of Dan D. Hanks, county superintendent. In the Navarro county courthouse for the purpose of making plans for the basketball tournament as well as the regular interscholastic league meet.

The county meet will be held at the State Olympian's Home this year, March 20-21. W. T. Brumblow, director-general, states. The county meet was held at Frost in 1930, and weather conditions interfered considerably. The meet had been held at the State Home for several years prior to that time.

Director-General Brumblow of the State Home faculty was elected at the Navarro county teachers' institute last fall here and was empowered to complete the appointment of the executive committee. The executive committee is composed of Mr. Brumblow; O. K. Vinson, director of debate, Navarro; C. E. Butler, director of declamation, Embury; W. E. Yowell, director of extemporaneous speaking, Zion's Rest; Miss Julia Kiber, director of spelling, Powell; Miss Irene Moore, director of essay writing, Corsicana; LeRoy Crabtree, director of athletics, State Home; Miss Ruth Carden, director of one-act plays, Kerens; Supt. D. D. Hanks, rural schools, Corsicana; Miss Myrtle Nunn, director of music, Corsicana; John E. Davis, director of arithmetic, Petty's Chapel.

Schools to compete in the interscholastic league must pay the membership fee not later than January 15. The schedule for membership in the league is for high schools—enrollment, 1 to 19, \$1; 20-49, \$3; 50-75, \$4; 80-119, \$5; 120-149, \$6; 150-199, \$7. Other schools—Enrollment 1-99, \$1; 100-199, \$2; 200-299, \$3; 300-above, \$4.

Director General Brumblow states that it is necessary to have funds to operate the league, provide medals, cups, judges, etc. The league has a deficit of about \$50 from last year, and as there is no way to secure this amount other than from donations by loyal schools, it is hoped that schools able to do so, aid in wiping up this deficit.

## Pursley Defeats Union High With Ease Last Friday

Led by the brilliant goal tossing of Payne, the Pursley high school bowled over the Union High school team 38-9 on the Pursley court Friday, Jan. 9. Payne alone accounted for 9 field goals, and one charity point, for a total of 19 markers for his alma mater.

The game was featured by the accurate passing, and brilliant goal shooting and team work of the Pursley quintet.

## Coolidge Defeats Teague Basketeers

TEAGUE, Jan. 12.—(Spl.)—The Teague Lions cage team tangled with the Coolidge Yellowjackets in the Mexia high gym last Friday night. The Coolidge quintet is one of the most powerful in Limestone county. The Lions, although some of the players are inexperienced, played them a good game. The final score was Coolidge 34, Teague 18.

Seagraves, Kerr and McSpadden each scored six points for Teague. Elliot, standing guard for the Lions, played an exceptional game, while the Coolidge center was the outstanding star of the evening for both teams.

**TEAGUE TO MEET WORTHAM**  
TEAGUE, Jan. 12.—(Spl.)—The Teague high Lions cage squad will meet the Wortham Bulldogs here Tuesday afternoon at 4 o'clock p. m. The Wortham basketeers have been Freestone county champions for the past four years; however the Lions have a fast quintet and promise to give the champions a fight for the game.

## WILL NOT RETURN POWER COMMISSION APPOINTEES SENATE

### SENATE REQUEST FOR RETURN OF NAMES BREAKS PRECEDENT OF BODY

WASHINGTON, Jan. 10. (P)—President Hoover today declined to resubmit to the senate the nominations of Chairman Smith and Commissioner Garsaud and Draper of the power commission.

Receipt of the message was announced in the senate but it was not read at once. It occupied one sheet of paper and was of about 300 words.

"I am advised," the president wrote, "that these appointments were constitutionally made, with the consent of the senate formally communicated to me and that the return of the documents by me and reconsideration by the senate would be ineffective to disturb the appointments in their offices."

"I cannot admit the power in the senate to encroach upon the executive function by removal of a duly appointed executive officer under guise of reconsideration of his nomination."

"I regret," he said, "that I must refuse to accede to the requests."

WASHINGTON, Jan. 10. (P)—President Hoover informed senate leaders he expected to reply today to the return of three power commissioners' nominations.

The commissioners are Chairman George Otis Smith of Maine, Commissioner Garsaud of Louisiana and Claude L. Draper of Wyoming. They previously were confirmed by the senate and have taken office.

Senator Watson, the Republican leader, was prepared to keep the senate in session today awaiting the reply of Mr. Hoover. It is expected that the capitol to be a sign for a new battle between the president and his coalition of senate Democrats and Republican Independents.

The president requested Attorney General Mitchell for an opinion even before the senate resolution reached his desk. The latter dropped all else at once.

The procedure, as explained, came first for the power commission. The right of the senate to follow the course taken in the resolution was questioned on constitutional grounds during the five days debate.

The resolution, adopted by a 44 to 37 vote, was aimed at Chairman Smith and Commissioners Garsaud and Draper.

WASHINGTON, Jan. 10. (P)—How the president will handle the senate's request that he return the nominations of three members of the power commission was today's dominant question in the capitol.

His strongest supporters in congress expressed confidence he would reject the unprecedented proposal, despite the 44 to 37 vote by which it was approved.

At the offices of the power commission today was accompanied by an assurance that the nominations of Chairman Smith and Commissioners Garsaud and Draper would not be sent back to the senate. Hoover would either ignore the request or rely with a rejection.

One course open for him in handling the resolution sponsored by Senator Walsh of Montana, was to forward it to Attorney General Mitchell for an opinion. There was some talk of justifying the nomination of three members of the power commission by giving an informal opinion.

Five days debate preceded the senate vote. Smith, Garsaud and Draper were taken to task for the dismissal of two commissioners—Solicitor Charles A. Russell and Chief Accountant William V. King. Some advocates of the resolution contended the commissioners had been influenced in this by power interests.

Senator Dill, democrat, Washington, contended the republican party was being swayed by what he termed "the power trust." He argued the resolution argued the dismissal was a routine operation of law applying to all employees of the commission; that power policies were not involved; the recall move was beyond the senate's rights since the commissioners had taken office.

No official word was forthcoming from the white house early in the day on the position President Hoover will take. If he stands pat, the difficult course of impeachment would be the only path open for any senate action to remove the commissioners from office.

Thirteen republicans, 30 democrats and the one farmer-labor member voted for recall. Five democrats joined the recall move in opposition. Only one record vote was taken, that on recall of Chairman Smith's nomination. The other names were considered by viva voce votes.

## POPULAR CORSICANA WOMAN PASSED AWAY FRIDAY EVENING

Funeral services for Mrs. Ella Goodwin Weaver, aged 42 years, wife of Clem A. Weaver, 608 North Twelfth street, who died Friday night at 10:45 o'clock following a lingering illness with heart trouble, will be held from the family residence Sunday afternoon at 2 o'clock with interment in Oakwood cemetery. The services will be conducted by Rev. J. L. Hines, minister of the Church of Christ, of which she was a member, assisted by Rev. Hugh Miller, Church of Christ, minister.

Mrs. Weaver had suffered with a heart ailment for the past year and had been in the Corsicana Hospital and Clinic for a week for treatment. Her condition took a

turn for the worse about noon Friday. She was well-known here as a young girl and later as Mrs. B. Bruner, mother of Mrs. Minnie Sutton and Mrs. S. C. Bagby, and was married in 1909.

Surviving, from her husband, one son, Clem Weaver Jr., Corsicana; four sisters, Mrs. O. E. Albright, Lorraine; Mrs. S. M. Hallmark, Lorraine; Mrs. J. L. Long, Lorraine; and Mrs. O. B. Hall, Crockett; and other relatives.

The funeral will be directed by the Sutherland Funeral Home.

## One Dead, Another Missing in Blast

### Large Gas Tank

COPENHAGEN, Denmark, Jan. 10.—(P)—A gas tank was killed, one was missing and another seriously injured today when a violent explosion wrecked one of the largest gas tanks of the municipal gas works here. Several other persons were less seriously hurt.

Four men were dismantling the tank, which they thought was empty when the explosion came. One man fell through the top of the huge container and was burned to death. The others were thrown some distance by the force of the blast.

Firemen said the explosion was caused by a spark from one of the worker's hammers igniting gas remaining in the tank.

## FOOD LOANS HOLD TALKATIVE SOLONS DEADLOCKED STILL

WASHINGTON, Jan. 10. (P)—Administration leaders in the house decided today to force the drought relief appropriation bill to conference with the senate under a special rule and thus speed enactment.

The decision was reached at a meeting in the office of Speaker Longworth.

Charles Wood, of the house appropriations committee, advised the unofficial steering committee that if he failed to obtain unanimous consent today to send the measure to conference he would ask it be given a special legislative status.

Chairman Snell said he would call the house rules committee to get the measure to conference. He would ask it be given a special legislative status.

The agreement promised a break in the several days deadlock which has held the \$50,000,000 loan measure in the house, after the senate addition of a \$15,000,000 amendment for food loans.

The appropriations committee chairman has tried to force the bill to obtain unanimous consent to send the bill to conference. Representative Laguardia, republican, New York, objected.

Chairman Wood had insisted before today that he would not consent to the seeking of a special rule for consideration.

WASHINGTON, Jan. 10. (P)—Neither side yielding an inch, the congressional tug of war over food loans continued today, holding deadlocked meanwhile the legislative session that would make \$45,000,000 available to farmers of drought areas for planting crops this spring.

The onslaught of those who contended that the bill would be a drain beyond the resources of the Red Cross continued yesterday in both branches of congress.

In the house it met an equally determined opposition. Led by Chairman Wood of the appropriations committee, who claimed communists and anarchists, "human values" were being sacrificed to "staged" disturbances.

LaFollette, republican, Wisconsin, used the testimony of Chairman Wood of the president's employment committee before the senate's appropriation group as a base for his argument that the government was not doing enough to help the needy. Only 130,000 men, he contended, could be helped, while Woods had estimated 5,000,000 unemployed.

Senator Garsaud, democrat, Arkansas, who introduced the \$15,000,000 food loan amendment to the house's \$45,000,000 appropriation bill for other loans, sought to sidestep the deadlock by moving to take the same food item onto a deficiency appropriation bill the house has passed.

The senate has yet to vote on the new plan.

While the debate went on no attempt was made by house administration leaders to get action on the drought loan bill. The measure was blocked by Representative Laguardia, republican, New York, in an effort to send the measure directly to conference over the chairman's amendment.

Chairman Wood announced he would yield only when there is agreement to extend any food loans that may be voted to all the needy, in the cities as well as the country.

The democratic leaders meanwhile continued to demand a vote by the house on the food relief bill. They argued the speaker's move would be a conference with the senate was the proposed and "expedient" procedure.

Wood's charges of communist interference, in which he involved the recent England, Arkansas, incident, were belittled by the five democratic members of the committee who were involved in disturbances over food demands "never heard of communism."

**Red Cross Relief Work**  
ST. LOUIS, Jan. 10. (P)—Drought sufferers in Arkansas have received about \$230,000 this week from the midwestern area headquarters of the Red Cross. A new sum of \$36,200 was announced last night.

Other dispensations announced last night were \$6,500 to Missouri, bringing the state total to \$38,700, and \$4,000 to Texas, which therefore had received no aid. The amounts are in addition to funds spent by local chapters.

All 75 counties of Arkansas have received aid from the Red Cross, William G. Baxter, Jr., manager of the midwestern area, said.

**Jones Bill Passes Senate**  
WASHINGTON, Jan. 10. (P)—The Jones bill authorizing annual federal appropriations of \$1,000,000 to be spent along with

turn for the worse about noon Friday. She was well-known here as a young girl and later as Mrs. B. Bruner, mother of Mrs. Minnie Sutton and Mrs. S. C. Bagby, and was married in 1909.

Surviving, from her husband, one son, Clem Weaver Jr., Corsicana; four sisters, Mrs. O. E. Albright, Lorraine; Mrs. S. M. Hallmark, Lorraine; Mrs. J. L. Long, Lorraine; and Mrs. O. B. Hall, Crockett; and other relatives.

The funeral will be directed by the Sutherland Funeral Home.

## TEXAS ELECTRIC RAILWAY COMPANY IN RECEIVERSHIP

### JAMES P. GRIFFEN, PRESIDENT, STILL IN CHARGE BY COURT ORDER

DALLAS, Jan. 10. (P)—District Judge Towne Young late yesterday appointed a receiver for the Texas Electric railway, owning 220 miles of interurban lines between Dallas and leading centers of the North Central Texas cotton belt, as well as the street railway systems of Waco, Waxahatchie, Corsicana, Sherman and Denton.

The court named James P. Griffen, Dallas, president of the railway for the last two years, receiver. The receivership petition was filed by the T. J. Moss Tie company of St. Louis.

Properties of the railway now include the lines from Dallas to Sherman and Denton, from Dallas to Waxahatchie, Hillsboro and Waco, and from Dallas to Corsicana. It is a separate company from the Texas Electric railway, which operates the interurban lines between Dallas, Fort Worth and Cleburne, and from Dallas to Terrell and Denton.

"We have not lost confidence in Griffen," said the court. "We have absolute faith in the cities, towns and communities along our line and with the cooperation and good will of the people we serve, the Texas Electric Railway will come out of this a stronger and more valuable agency of service."

He then said the railway was among the first transportation companies to feel the competition of motor vehicles and on Jan. 1, this year, for the first time, the railway was able to pay \$250,000 interest on first mortgage bonds and debentures approximately \$7,500,000, although it was able to meet maintenance expenses of \$1,000,000. The bill owing to the T. J. Moss company was only \$687.11.

equal amounts from states for "promotion of the health and welfare of mothers and infants," was passed today by the senate.

**Recommended Large Sum**  
WASHINGTON, Jan. 10. (P)—Chairman Payne of the American Red Cross recommended to President Hoover an appeal for \$10,000,000 for the relief of drought sufferers.

**New Texas Buildings**  
WASHINGTON, Jan. 10. (P)—Bids will be advertised in March for construction of the federal building at Lubbock for which congress has appropriated \$2,000,000. James A. Weimore, superintendent, advised Senator Tom Connally of Texas yesterday. He also received assurance that Lufkin and Quanah would be placed on the eligibility list for new postoffice buildings.

**Many Louisiana Appeals**  
ALEXANDRIA, La., Jan. 10. (P)—A statement was issued here today by B. F. Thompson, chairman of the Louisiana drought relief commission.

"Numerous appeals for food come to me daily," he said, "and I am unable to provide help, because no funds have, or will be furnished the state drought relief committee to either buy or distribute food."

"So far congress has not provided any means to be used as a loan for the purchase of food, clothing or human necessities," he said. "The American Red Cross organization to provide this part of the relief work."

"These people who are needing food, all the human necessities should apply to the local Red Cross chapters in the parishes in which they live."

**Garner Introduces Measure for Hoover**  
WASHINGTON, Jan. 10. (P)—A bill to carry out President Hoover's request for an appropriation of \$287,000 to defray expenses of the American section of the International Water Commission was introduced today by Representative Garner, democrat, Texas.

The measure would provide for further study and surveys of irrigation, hydroelectric power, flood control and flood control on the Rio Grande, Colorado, Tia Juana and Gila rivers and Bill Williams creek.

President Hoover yesterday recommended the appropriation be made available immediately.

The secretary estimated \$110,000 would be devoted to surveys and studies of reservoir sites, \$10,000 for field surveys and office studies of flood protection in the Lower Rio Grande Valley, \$20,000 for additional geological and hydrographic work, \$15,000 for investigation of uses and losses of waters, \$64,000 for flood control studies on the Lower Colorado, and \$68,000 for the expansion of studies of the international water, commissioner and consulting engineers.

**Texas Bankers Asked Aid Needy Farmers**  
DALLAS, Jan. 10. (P)—Capt. J. F. Lucey, member of President Hoover's unemployment commission for the southwest, said today he had solicited the aid of the Texas State Bankers' association in providing for the needy farmers of the state.

The association was asked to investigate farmers' conditions all over the state, and to extend additional help, possibly by Findings of the survey would be reported to Captain Lucey, who would ask the state and federal governments to meet the emergency requirements.

"Returns to a questionnaire show that many farmers are giving up their farms, stock and implements and moving to the towns in this section," Captain Lucey said, "the needy farmers are not confined to any one section," he stated.

While in Washington this month, Captain Lucey will urge that the federal building program be speeded up, he said. Texas has approximately \$8,000,000 in federal buildings already authorized. Cities sharing in the program are Beaumont, Brownsville, Coleman, El Paso, Fort Worth, Galveston, Houston, New Orleans, Lubbock, Mexico, Plainview, Sabal, Pass, San Antonio, Sweetwater, Texarkana and Wichita Falls.

## Six Men Arrested After Theft Many Illinois Chickens

WHEATON, Ill., Jan. 10. (P)—Six men, who, authorities said, stole chickens valued at \$100,000 after hijacking more than fifty trucks, were under arrest today.

A Brooklyn, Iowa, farmer, hitchhiking homeward after being robbed of his truck and 35 crates of chickens, noticed the machine parked nearby in a farmyard west of Chicago and notified the authorities, who conducted a series of raids.

## STATE SCORES IN LEGAL SKIRMISH IN LINGLE CASE

CHICAGO, Jan. 10. (P)—Detectives said they captured two intimates of Leo V. Brothers and found "important evidence" in an early morning raid today on one of the apartments where Brothers, held secretly for the murder of Jake Lingle, once lived.

Charles F. Rathbun and Pat Roche, special investigators, conducted the raid, taking their prisoners to a secret office to question them. They refused to reveal whom they had captured, but John A. Swanson, state's attorney, hinted that the arrests were significant.

CHICAGO, Jan. 10. (P)—The state scored a victory in the first legal skirmish in the proposed fight to send Leo V. Brothers, who alleged the court's decision chair for the murder of Alfred Lingle, Chicago Tribune reporter.

Efforts intended to force the prosecution's hand by compelling the state to produce the accused man in court immediately, met with a reversal yesterday when Judge Philip J. Finnegan, acting chief justice of the criminal court, made a habeas corpus writ returnable next Wednesday, one day longer than the prosecutors had requested.

The petition for the writ was filed by Brothers in behalf of his mother, Mrs. Jessie Jensen of Webster Grove, Mo., by Attorneys Taylor Krum and Louis Pluget, who alleged the court's decision held Brothers in a secret place of detention since December 21, was not receiving his constitutional rights. A heated argument followed the court's decision.

The state's attorney will withhold delay present the matter to the grand jury. Assistant State's Attorney J. J. Chitt told the court that the state would come to this court and give its testimony, when they can give it to the grand jury in secret. Murder is not a bailable offense anywhere.

"But," protested Attorney Krum, "he is not charged with murder." "He will be charged with murder," retorted Chitt.

Judge Finnegan then gave the state the extended period during which time Brothers, according to State's Attorney John A. Swanson, will be indicted. The court also refused to grant witnesses permission to see the prisoner.

**Farmer Living Near Hubbard Is Dead**  
HUBBARD, Jan. 10. (Spl)—J. M. Kendrick, aged 63, died at his home in the Cleveland community Wednesday following a short illness with pneumonia, and the funeral services were conducted Thursday morning with interment in the Dover cemetery.

He was a native of Alabama, but had resided in Texas 37 years. Surviving are his wife, and three sons, Robert Kendrick, Callina; Roy Kendrick, Athens; and Lynn Kendrick, Hubbard.

**Pioneer of Hubbard Community Is Dead**  
HUBBARD, Jan. 10. (Spl)—J. V. Rich, 81, pioneer resident of the Callina community, died Wednesday morning and the funeral was held Thursday afternoon with interment in the local cemetery. He was a native of Georgia, but came to Limestone county in early eighties and resided there until he moved to the Callina community 35 years ago.

Surviving are one son, Vernon Rich.

**Poultry Business at Hubbard Is Valuable**  
HUBBARD, Jan. 12. (P)—The poultry business in this community represented a good sum of money during the past thirteen months according to figures furnished by a representative of a Waco poultry concern. For the thirteen months from Dec. 1, 1929, to Jan. 1, 1931, the total paid for chickens, eggs and turkeys here was \$30,610.72.

There are other dealers in produce here whose totals were not included in the above figures.

**Land Leasing Probed Starts**  
AUSTIN, Jan. 9. (P)—Faced with the task of reporting to the legislature on their findings, the members of the legislative com-

mission investigating land leases of the University of Texas were here today for a meeting.

The committee will have for primary consideration a report of the state auditor on his investigation made at the committee's request. The auditor's price studied exclusively the affairs of the operators in Reagan county on university oil lands.

Fruit trees, shade trees, shrubs, rose bushes, vines, flowering bushes, pecan trees, in fact a large and complete line for planting and you will find our prices in line. You will benefit by our experience of many years.

Once you learn this perfect way you'll never deal in any other manner with the headaches, gas, bloating, nausea, dizziness, indigestion, biliousness, etc., due to an over-acid stomach and bowels.

Be sure to get genuine Phillips'. It is always a liquid; never made in tablet form. Look for the name Phillips on the bottle. All drug stores—25c and 50c.

## THREE PROPOSED MEASURES EXPECTED CAUSE HARMONY RIFT

### STATE BOND ISSUE, REDISTRICTING AND LAND LEASING FEARED

AUSTIN, Jan. 9. (P)—Hope and anxiety prevailed today as the advance guard of the legislature began arriving for the opening of the 42nd session Tuesday. All hoped the session would be harmonious, but many fear several projected bills would cause rifts.

Three items were seen as possible sticking points. One was the recommendation of the state highway commission that a statewide bond issue be submitted to the people to provide a uniform income for the highway department. Another was the proposed congressional and state redistricting bills, several of whom have either been prepared or are in process of preparing a plan.

Representative Penhose Metcalfe of San Angelo was taking the lead along this line and said he had the bill to revise the congressional districts completed.

The third sticking point was expected to be the investigation of the leasing of university lands and the collection of oil royalties. A house investigating committee had been working since the close of the last session inquiring into the leases with the aid of Moore Lynn, state auditor. Lynn had recommended to the legislature that some action be taken concerning items developed by the investigation. Representative Bob Long of Wichita Falls, investigator of the inquiry, has expressed dissatisfaction with the results obtained by the committee and has said he will bring in a minority report that will be more complete than the committee report.

Long said "hides will be hanging all around the capitol when I bring in this report. The investigation had developed little that was not known before the inquiry started."

**Cox Appears Early**  
Ernest C. Cox, former state commissioner of the American Legion and a former member of the house, was one of the first lobbyists on the scene. He announced efforts of the legion would be directed toward the legislature to provide additional facilities for the operation of the disabled veterans bureau and for more stringent divorce and adoption laws.

Cox said one of the main concerns of the legion was to see that children were given homes in private residences and not shunted off into public orphanages.

## COURTHOUSE NEWS

**District Court.**  
The Navarro county grand jury did not recess late Friday as intended, but was still in session Saturday morning. It is thought that the investigation will recess for several days Saturday.

**Warranty Deeds.**  
Henry Iversen, at law to McCammon and Lang Lumber company, lot 9, block 637, Corsicana, \$5 and other considerations.

**Marriage License.**  
Beacher Bryant and Pirlee Lyria.

**Sheriff's Office.**  
Mott Miller, negro, was arrested Saturday morning in the Chalfield community by Deputy Sheriff J. M. Westbrook and Jack Floyd in connection with the alleged theft of an overcoat, hat and pair of shoes from the J. C. Walters survey, \$5 and other considerations.

**Justice Court.**  
Judge J. L. Cox assessed a fine against one person on Friday on a charge of affray.

## SAN ANGELO MAYOR IS KILLED IN LEAP FROM SIXTH FLOOR

SAN ANGELO, Jan. 10. (P)—Mayor A. A. Glover of San Angelo jumped to his death from the sixth floor of a bank building here today.

A verdict of suicide was returned by Justice of the Peace B. E. Gray. Death was instantaneous.

Mr. Glover had been worried over ill health and financial reverses, friends said. He was president of the American Legion and a former member of the house, was one of the first lobbyists on the scene. He announced efforts of the legion would be directed toward the legislature to provide additional facilities for the operation of the disabled veterans bureau and for more stringent divorce and adoption laws.

Cox said one of the main concerns of the legion was to see that children were given homes in private residences and not shunted off into public orphanages.

CORSICANA, TEX., JAN. 13, 1931.  
FUTURE BRIGHT.  
Every American should be ambitious to make 1931 a prosperous and progressive year.

Never have our resources been so great. Never have we possessed such an abundance of potentialities for future achievement.

The nation is beginning to emerge from the "depression wave" which engulfed us more than a year ago. There is nothing fundamentally wrong with America, and our ills are of the most transitory sort.

All the preceding generations discovered, evolved and perfected is ours to use. No other nation ever had so firm a foundation on which to build.

Local prosperity depends on buying and selling between individuals and industries—world prosperity depends on buying and selling between nations.

Political bickerings, sectional jealousies, local prejudices—all must be conquered and forgotten in the work of accomplishing the greatest possible good for the greatest possible number of people.

WORLD MOURNS JOFFRE  
In 1914 the French nation needed a colorful militarist as a defender. It needed him as it had never before needed a savior in its long, martial history. The Germans had declared war and were hurling through Belgium the greatest army of conquest that had ever marched in Europe.

The French were excited. The Latin temperament was exceedingly agitated by the war news. Their leader must be a man sufficiently composed to allay the nervousness that had seized the country.

A man who was born in a village at the edge of the eastern Pyrenees and had Spanish blood in his veins was selected by the war council to forge the destiny of France in the impending clash.

It was General Joseph Jacques Césaire Joffre. Now Marshal Joffre is dead at the age of seventy-nine, and the world mourns with France. When General Joffre threw back the Germans from the Marne in September of 1914 and saved Paris, the fate of the war was dictated. All history fails to reveal a greater military feat.

As the war continued, it was of a nature that submerged individuals and glorified machines. That is why there are few outstanding personalities associated with the later years of the struggle. The war evolved into mass production applied to slaughter, and that is frightfully impersonal.

Though General Joffre was retired after the second year of the war, with the title of marshal, he holds a place in the grateful memory of France and her allies second to that of no other individual. A commander of less experience, of a more despondent temperament, could have readily lost the war for France in the first year. Joffre had the poise, patience and doggedness that were needed in the emergency.

It is suspected that New York newspapers have at last got wise to one press agent stunt. Not an actress in New York has lost a jewel in the present season.

It is worth noting, also, that even before the depression very few of the big jobs were held by men who like to carry three fountain pens in a vest pocket.

The latest capital and labor problem is to determine which is which.

The clothes that make the woman are the clothes that break the men.

## JUST FOLKS

**REFUGEE.**  
At times when I have fled the white heat,  
The drifted snows and dull, dark  
skies of gray,  
As one who from some terror  
runs away  
To hide in safety till the danger's  
passed,  
Seeking the sands of summer  
where are cast  
Soft waves of pleasure round the  
feet of play,  
I find myself beneath the laugh-  
ter gay,  
Wishing I'd not been frightened  
quite so fast.

Sunshine and safety and the con-  
stant blue  
Of cloudless skies of summer-  
time have paled,  
I want once more to battle to  
the called;  
To stand and brave a blizzard's  
fury through,  
And then to trade the coward's  
peace I know  
Upon my cheeks to feel the  
northern blow.  
Copyright, 1931, Edgar A. Guest.

## RAIL CONSOLIDATION.

Merging of the railroads in the East into four great systems under a plan suggested by President Hoover is expected to improve the financial condition of all the roads, improve the service, eliminate cutthroat competition and remove the need for increased rates.

Railroad consolidation recognizes a situation under which there is not an excess of railroads, but too many roads competing with each other that should be co-operating with each other. The merger plan proposes to eliminate this condition.

A few years ago such consolidations would have been banned by the trust-busting hysteria and the popular phobia against trusts and monopolies. Today the public encourages them as beneficial to the consumer.

Attempts in this direction by the railroads to regain their old stability are more logical than their organized efforts to lobby their competitors on the highways, airways and waterways out of business through high taxes, ruinous government control and unfair limitations. Had the railroads fought each other less they might have put up a more united front against the new invasion of the transportation field.

The railroads have awakened to the fact that transportation is undergoing revolutionary changes with which they must keep pace if they are to hold their business.

## ANOTHER COSMIC RAY

Sometimes it seems that science will not be satisfied until every research worker has discovered a ray of his own, named and described it and speculated freely concerning its origin, cause and effect. Dr. Victor Francis Hess, of Austria, contributes the latest suggestion of a cosmic ray and gives detailed description of its force and wave length.

Its force he considers to be ten times as great as that of radium; and since he was for two years director of the research laboratory for an American radium company, it may be assured that he knows the habits of radium. The wave length of this new ray he thinks to be the shortest known to science—possibly one-thousandth that of the radium ray. And the shorter the ray, of course, the harder it hits and the further it goes.

If Dr. Hess is right in his experiments and speculations, the ray he has identified originates in the fixed stars and is still powerful enough when it reaches the earth to penetrate eighty inches of lead plate with a loss of only half of its strength.

This is all cryptic stuff for the layman, but the scientists have lately said so much of these cosmic rays that the world is aware of invisible and unmanageable forces beating upon it from the depth of space, unheeded by the five senses but demonstrable by the delicate experiments of the laboratory.

One way, says an unsophisticated Californian writer, to avoid violating the law is to sit down and do nothing. And be picked up for loitering.

One of brother's chief problems is to keep sister out of his Christmas cigarettes.

## ANOTHER TRAFFIC PROBLEM

## THE NATIONAL CAPITAL

From time to time politicians, editors and others suggest and urge the national capital be transferred to a point nearer the center of population. Their reasons are so apparent and so well known that repetition is unnecessary.

It is true that the site on the shores of the Potomac was selected because it was the geographical center of the then inhabited portion of the country and that slow and difficult transportation made such consideration important in that early day. That is no longer true.

Washington is only thirty-six hours by plane, five days by railroad and ten days by motor from the most remote corner of the land. It is within momentary communication by telegraph, telephone and radio with the constituency of every congressman. And newspapers complete the daily contact.

One of the reasons given by the advocates of the relocation is that Washington is vulnerable to attack by sea. But the wars of the future will be fought in the air, and the interior is no safer than the coast from attack by air.

It seems absurd to advocate the scrapping of the nation's most beautiful city with its costly government buildings for the ephemeral and imaginary benefits that might be derived. And suppose the national capital should go west. Ten years hence the center of population would have shifted again and somebody would be finding a new seat for the government.

## RELIGION AND SCIENCE.

Two famous scientists have made recent contributions to the effort to reconcile science and religion for the benefit of a public which either takes the extreme viewpoint one way or the other or remains completely befuddled. They bear testimony to the proposition that belief in the scientific truth of evolution does not constitute disbelief in God, or adherence to the presumption that life originated without divine command and control.

Dr. Robert A. Millikan, with whom Professor Einstein is working on his visit to the United States, insists that evolution, instead of setting up a theory of godless creation, identifies the Creator with mankind more closely than as merely a mysterious divinity outside of the universe winding it up as a man winds a clock. The other great scientist to declare science and religion one and the same was Dr. George W. Crile, of Cleveland, the author of profound studies indicating that human emotions are of

## PROSPERITY AND THE TARIFF.

The revisers of economic laws in Washington have at last produced one instance in which political action has been effective in the economic field. The makers of the Hawley-Smoot tariff bill clearly intended to destroy Uncle Sam's import trade with the rest of the world. They succeeded too well, for they are also destroying his export trade.

In November the total foreign trade of the United States dropped to \$489,154,000 as compared with \$773,907,000 in November 1929. This is a rate of \$284,753,000, or about thirty-six percent, in a single year. If this process is continued for two more years the United States will cease being the country with the largest world trade and become the only country with no world trade.

In the face of this disastrous effect of their cure-all, do the authors and supporters of this tariff now concede, as strongly as they recently contended, that the prosperity of the nation stands or falls upon that same high tariff? They admitted of no other factors during the debate in congress and cannot consistently blame others now.

Business never displayed much enthusiasm for the present schedule of duties, but it shows less daily. Under it exports have decreased more rapidly than imports, until now the loss to American business men is \$150,000,000 a month, nearly two billions a year. In those figures whole industries can see their ruin, or, at least, their current losses. The Hawley-Smoot tariff has lost to the country more than the cost of drought and unemployment relief; has, probably more than any other single factor, made the relief necessary and a federal deficit inevitable.

mechanistic development. He told the Association for the Advancement of Science that his recent experiment with brain substances must not be construed as demonstration of production of life.

From these men of science one learns that man cannot dispense with science and live by creed alone. Nor can he dispense with religion and subsist on pure science. For the two enter into each other and yet cannot take the place of each other. After all, religion is the science of the mind and soul of man.

While they're at it, let the government resolve not to run private business and let private business resolve not to run the government.

## THE SAWDUST TRAIL.

Doubts of the effectiveness of old-fashioned religious revivals have been prevalent among observant churchmen for some years. There has been in some quarters a disposition to feel that whatever good may be accomplished by leaders in this kind of religious work is overbalanced by the air of professionalism which attends their campaigns. Now leaders of a number of denominations are united to substitute less obtrusive and more intimate methods to stimulate religious feeling in their communities.

No one may say how deeply the religious experience of the sawdust trail was actually felt. But to say, as some critics of the revivalist have been doing, that spectacular revivals do no permanent good is to assume that which probably is not true. It will hardly do to suppose that any man of great eloquence can speak powerfully to multitudes day after day in behalf of sobriety, clean living and all the simpler virtues without working some good.

## THE RIGHT START.

The schoolboy traffic patrols have proved their value throughout the country in both large and small communities. Wherever they have been established the safety record has been bettered. In assisting small children across the street and in teaching traffic safety, these groups of boys are instinctively emulated by other children in safety as well as in other matters. It is gratifying to note, therefore, that this school year has witnessed the extension of the plan in many parts of the country.

Month after month the toll of traffic has become heavier throughout the United States. Various agencies and many individuals have been crusading for greater traffic safety, but despite these efforts injuries and fatalities have increased. One reason lies in the fact that "safety first" has not been popular among adults in general.

Teaching safety to children will bear fruit, not only in the present, when many accidents are caused by the natural carelessness of childhood, but in the future, when the lessons of safety learned during impressionable years will have become a habit.

There may be a direct connection between the extension of the school traffic control plan and the fact that seventy-six cities have reduced their traffic death toll since June.

Ancient history: Republican harmony.

WATCHFUL WAITING  
POLICY ADOPTED IN  
HOUSE ON RELIEFCONTROVERSY OVER FOOD  
LOAN INSERTED BY SEN-  
ATE STILL HANGS FIRE

WASHINGTON, Jan. 9. (P)—The disputed \$15,000,000 food loan proposal for drought stricken farmers was introduced in the senate today by Senator Caraway, democrat, Arkansas, as an amendment to the deficiency appropriation bill passed yesterday by the house. The \$60,000,000 drought loan bill remained pigeonholed in the house meanwhile, due to failure of efforts to get a unanimous consent agreement to send it to conference with the senate on the food amendment. The administration opposes the proposal. Calling attention that the house has failed to act, Caraway remarked in the senate "let's see if they will add this amendment to the deficiency appropriation bill to the graveyard of buried hopes."

WASHINGTON, Jan. 9. (P)—Watchful waiting was continued today by administration leaders in the house controversy over the senate's \$15,000,000 food loan amendment to the drought relief bill. Chairman Wood, of the appropriations committee, said he would make no further effort to send the measure to conference until proponents of the amendment withdraw their opposition to doing so by unanimous consent. "I can wait as long as they can," he said off the floor. "If they want action in the right way they can have it."

Wood has made three attempts to get the measure into conference by unanimous consent. Each has failed due to the objection of Representative Laguardia, republican, New York, who said he considered the measure discriminatory.

The essence of the controversy, however, is that the senate amendment provides loans to farmers of the drought area with which they may purchase food. The administration supports the \$45,000,000 house bill for seed, feed and fertilizer loans. Wood termed the amendment "communistic" and wrong in principle. "This is a great time for communists and anarchists and Bolsheviks," he said. "If we start the practice of appropriating funds in this manner, the first thing you know we will have destroyed the sources of revenue."

WASHINGTON, Jan. 9. (P)—Senator LaFollette asserted in the senate today that President Hoover and the Republican leadership in congress had "failed" to provide adequately for drought and unemployment relief. The Wisconsin Republican, an Independent, assailed the legislative program mapped out for the remainder of the short session by the Republican leaders. Immediate attention should be given to measures providing food and clothing for drought sufferers, he said, and either provide federal aid to cities to relieve unemployment or "afford resources" to the Red Cross.

"Congress, like Nero, is fiddling while Rome burns," he shouted. Citing testimony before a senate committee on the emergency construction and employment bill, LaFollette said the program would provide direct employment for only 130,000 men.

"These estimates," he said, "were as optimistic as possible." "When we find that even Col. Arthur Woods, chairman of the president's unemployment commission estimates the unemployed at 5,000,000, we see how utterly and tragically inadequate the relief program is," LaFollette said. "The program is merely a plaster upon the situation."

FIFTY THOUSAND  
FAMILIES NEEDING  
AID IN ARKANSAS

LITTLE ROCK, Jan. 9. (P)—Henry M. Baker, special representative of the American Red Cross, making a survey of food needs in rural sections of Arkansas said today his organization expected to aid a minimum of 50,000 families this month.

He said that during December 20,617 families in this states received assistance involving expenditures from local funds of \$51,346, distribution of donated supplies valued \$45,920, and \$45,920 in cash grants of the American Red Cross of \$115,000.

In discussing the conditions, Mr. Baker took Jefferson county as an example. He visited 75 families composed of 156 adults and 285 children.

Seven per cent of the family heads were earning wages, the highest being \$2 a day, he said. Two families had food to last the winter, he said, seven had food for a week, two enough for five days, eight enough for four days, seven for three days and fifty only enough food to last one or two days.

## COURTHOUSE NEWS

District Court.  
The county grand jury will likely recess late Friday for a number of days, it was indicated Friday morning. The investigators were empaneled Monday morning and then recessed until Wednesday when the investigations were instituted.

District Clerk's Office.  
The following case was filed:  
The City of Corsicana vs. Herman Hospital

Sheriff's Office.  
Sheriff Rufus Pevehouse returned Thursday from a Bexar county jail with S. Hays, negro, wanted here on a charge of alleged forgery.

Warranty Deeds.  
Z. C. Tekell to the Farmers National Farm Loan association, Corsicana, 25 acres of the Silas H. Walker survey, \$25 and other considerations.  
L. E. Kelton, Sr. to Leslie E. Kelton, Jr., et al 134.98 acres of the John Beauchamp survey \$1 and other considerations.

Justice Court.  
One person was fined Thursday on a charge of drunkenness in Judge J. L. Cox's court. A negro woman residing at Powell reported that six chickens belonging to her were stolen and that she had discovered them in Corsicana. The complaint was made in the court of Judge Cox.

Judge W. W. Clopton was busy Friday morning transcribing the cases of alleged cattle theft against Lewis Green, Roy Green and Budlio Green negroes, to the district court. The trio were arrested on Thursday and lodged in the county jail by Deputy Sheriff J. M. Westbrook in connection with the alleged theft of a cow from W. B. Thorp, Nov. 18, 1930. The case was presented to the grand jury Friday.

A liquor complaint was also filed in Judge Clopton's court Thursday.

CONCRETE PAVING  
OPEN TO TRAFFIC  
TOWARDS OIL FIELD

Traffic has been turned on that stretch of highway 22, the Corsicana-Palestine highway, from Corsicana to the Three Way Filling station, officials announced Thursday. This road pavement was completed by the F. P. McElroy Construction company Christmas eve.

With the opening of this stretch of road, traffic in the oil fields now have an excellent route to Corsicana and a long stretch of concrete from the Three-Way Filling station south had previously been constructed.

Highway 22 branches at the Three-Way filling station in a southeasterly direction via Eureka, and work on the dirt and drainage structures is under way at the present time on that route. It is expected that part of the consolidated road district No. 1 line in the vicinity of Eureka will be constructed during this year.

**Head and Back Quit Hurting**  
A few years ago, I found that I was very weak and nothing I ate seemed to give me any strength," writes Mrs. R. B. Douglas, 704 South Congress St., Jackson, Miss.  
"I suffered intense pain in my head and back. At times I would have to hold to something to steady myself, so as to do my little work. I was worried about my condition."  
"My mother told me that I should take Cardui. After taking two bottles, I felt stronger, but I kept on taking it until my head and back quit hurting. I took about six bottles in all, and have never quit praising Cardui."  
**CARDUI**  
USED BY WOMEN FOR OVER 50 YEARS  
Take Theodor's Black-Draught for Constipation, Indigestion, and Bloating.

WOODCOCK WILL  
TOUR NATION IN  
PROHIBITION WORK

By JOHN F. CHESTER  
WASHINGTON, Jan. 9. (P)—Prohibition Director Woodcock is about to resume his travels, inspecting first hand the efforts of his dry agents and conditions they are meeting.

Hurriedly recalled to the capital some weeks ago by President Hoover and Attorney General Mitchell, just as he was about to sail for Honolulu, Woodcock has been helping steer the prohibition appropriation measures up to the floor of congress.

As soon as money matters are settled he said today, he plans to take up just where he left off first visiting the Minnesota district, and then the West Coast before sailing for Hawaii.

The northern Maryland attorney was enthusiastic about the progress his small army of dry agents have made since he became the federal prohibition chief last July 1. "The prohibition bureau has made great advances in efficiency, loyalty, and esprit de corps," Woodcock asserted. "We have a better staff than we had six months ago. And we are going to enforce this law decently or we won't enforce it."

Congressional action to the contrary notwithstanding, Woodcock made clear today the bureau will continue publication of pamphlets and educational monographs designed to disseminate facts about prohibition. The house Tuesday struck out a paragraph granting a deficiency appropriation of \$10,000 for education, but left an appropriation of approximately \$943,000 for the bureau unchanged.

**Slight Damage to Several Bales Cotton In Emhouse Yard**  
Several bales of cotton in the Emhouse cotton yard were damaged by fire about 9:15 Thursday night, but the blaze was extinguished before much damage was done. It is thought that one of the bales was ignited while it was being ginned Thursday afternoon and did not break out until Thursday night.

**Infant Son Died Thursday Night**  
The infant of Mr. and Mrs. Sam C. Sikos, Corsicana, who died Thursday night at 9 and the funeral was held Friday afternoon at 1 o'clock with interment in the Pedy cemetery.

The funeral was handled by the Sutherland Funeral Home.

**Hatchery! Hatchery!**  
We will start our incubators Monday, January 12th. Eggs are cheap enough to set and it will be good idea to get off some early chickens. We will hatch this year for \$3.00 per tray. Book your space by Saturday of each week.  
HENS — We are loading car poultry each week and if have any surplus now would be good time to sell.  
Yours truly,  
**A. B. Walker & Son**

# **PUBLIC HEALTH NURSE BOARD MAKES REPORT OF ACTIVITIES HERE**

The following report came from the public health nurse board on the work recently done by Miss Jean M. Campbell, R. N., in examining the children in some of the schools of Navarro county:

Number of schools..... 12  
 Number of pupils examined..... 1,661  
 Number of pupils defective..... 1,181  
 10 per cent or more under weight..... 427  
 20 per cent or more over weight..... 19  
 Pupils with defective tonsils..... 968  
 Pupils with defective teeth..... 536  
 Pupils with defective gums..... 502  
 Pupils with defective vision..... 104  
 Pupils with defective eye lids..... 75  
 Pupils with defective posture..... 27  
 Pupils with defective heart..... 6  
 Names of schools: Providence, Roane, Petty's Chapel, Phillip's Chapel, Zion's Rest, Emhouse, Purdon, Rice, Navarro, Blooming Grove and Powell. Mildred school not included on this report as medical examinations were not complete.

The schools were fortunate in securing the services of their local physicians. Dental examinations were made in one.

Chest examinations were given to pupils of the schools.

Only a small percentage of the children have ever been vaccinated.

Respectfully Submitted,  
 (Signed) JEAN M. CAMPBELL,  
 Public Health Nurse.

Miss Campbell came from the Texas Tuberculosis association and worked through the public health nurses' board of Corsicana, with the assistance of our own public health nurse, Miss Pearl Fulcrod. This service was made possible through the sale of the Christmas seals, which this board puts on every year.

Much to our regret it was impossible for us to get to all the schools in the county on account of the lack of time and the condition of some of the roads.

We take this method of thanking Andrew Steele, county superintendent, for his hearty cooperation, the principals and teachers in the different schools who assisted in the work, and the doctors in Emhouse, Mildred, Purdon and Blooming Grove, who so generously donated their time and services to the examinations.

Public Health Nurse Board of Corsicana.

Mrs. C. L. Matthews, President.  
 Mrs. E. Z. Cunningham, Sec'y.

# **BODY OF WOMAN SENT TO CLIFTON MONDAY FOR BURIAL**

Mrs. Phenie Elizabeth Dollins, aged 52, died at the home of her son, W. E. Dollins, at the Tidal Oil company camp, Sunday afternoon at 12:20 after an illness of five years, and the body was forwarded to Clifton at an early hour Monday morning by the Corley-McMahon Funeral Home where the funeral services will be held and interment made sometime Tuesday. Mrs. Dollins had resided here about two years.

Surviving are four sons, W. E. Dollins and V. C. Dollins, both of Corsicana; Emmett Dollins, Oklahoma City and Frank Dollins, Turnersville; and five daughters: Mrs. Helen Mayo, Dallas; Mrs. Pearl McNeely, Whitney; Mrs. Nathan Young, Van; and Mrs. Mattie Hagler and Miss Kathleen Dollins both of Corsicana.

# **NAMED JUDGE HEAD CONFEDERATE HOME UNANIMOUS CHOICE**

AUSTIN, Jan. 12.—(P)—R. R. Patterson of Roby, county judge of Fisher county, today was named superintendent of the state Confederate home here. Claude Teer, chairman of the state board of control, said Judge Patterson was the unanimous choice.

Father Was Soldier.

ROBY, Jan. 12.—(P)—Judge R. R. Patterson, appointed superintendent of the state Confederate home, was born in Pontotoc county, Miss., 47 years ago. His father and grandfather were soldiers in the Confederacy, the latter having been killed in action. The family came to Texas in 1896, settling on a farm near DeLeon, Comanche county.

Patterson came to Fisher county in 1907, with the founding of Rotan, where he opened a mercantile business. In 1918, when the West Texas oil boom started, he went to Ranger and Breckenridge, where he spent three years, returning to Rotan in 1921.

He was elected county judge of Fisher county in 1928 and re-elected last year, and was a leader in the successful campaign to hard-surface the county's highways.

"Superintendency of the state Confederate home appeals to me greatly," he said today, "raised on stories of the conflict. The principal for which the Confederacy went to war and the fierce struggle against overwhelming numbers and resources, are as vivid to me as if it all happened yesterday, and the remnant of our grand old men who fought the war are dear to me, my heroes still."

**War Veteran Assails Loan Interest Rates**

SPOKANE, Jan. 12.—(P)—Captain Herman H. Weimer, national commander of the disabled American veterans of the world war, today assailed the government for the high interest rates it charges former service men who borrow on their insurance.

"The government is borrowing money at 1 1/2 per cent interest," he said in an interview, "and requiring the former service men who borrow on their insurance certificates to pay from 5 1/2 to 7 per cent on the loan."

Captain Weimer said some of its members as "laison officers," and would be stationed in each hospital "to let the boys know how to get the benefits they have coming to them and to teach them their rights."

Sun want ads bring results.

# **Courthouse News**

**District Court.**  
 The following have been summoned as petit jurors for the third week of the January term of the Thirteenth Judicial district court for the week beginning Monday, January 19:

W. H. Dechard, Corsicana; A. L. Bain, Kerens; Earl Bennett, Wortham; Sam E. Ellis, Corsicana; J. W. Burrow, Powell; H. Carroll, Stretman; Guy M. Gibson, Corsicana; J. W. McClintock, Roane; J. L. Hawthorne, Stretman; Allen Hamilton, Corsicana; Jess Barnett, Kerens; J. H. Barham, Barry; W. A. Herod, Corsicana; E. D. Speed, Kerens; J. C. Sears, Purdon; E. S. C. Hopper, Corsicana; E. M. Gorman, Roane; C. E. Banks, Purdon; Worth Johnson, Corsicana; J. B. Farris, Kerens; J. L. Almond, Dawson; J. H. L. Jones, Corsicana; C. E. Forner, Powell; L. W. Armstrong, Barry; George Kuykendall, Corsicana; J. O. Gaines, Eureka; J. A. Bills, Dawson; Earl R. Murray, Corsicana; H. C. Bartlow, Kerens; J. S. Slater, Frost; J. M. Pugh, Corsicana; J. A. Fields, Powell; J. A. Bell, Dawson; J. C. Sears, Corsicana; Willard Parker, Corsicana; W. E. Bowman, Frost.

The Navarro county grand jury resumed its investigations Monday morning.

The case of John L. Boyette vs. Texas Indemnity Company, to set aside award of Industrial Accident Board, went on trial in district court Monday morning.

**County Court.**  
 The following have been summoned as petit jurors for the third week of the January term of the county court for the week beginning Wednesday, Jan. 21:

J. Edd Berry, Purdon; J. M. Bradley, Rice; A. W. Christian, Rice; P. Sawy, Richmond; J. M. Garrett, Powell; W. C. Nokes, Corsicana; T. M. Ferguson, Powell; W. D. Talley, Kerens; Albert G. Daniels, Corsicana; A. C. Carraway, Corsicana; H. J. Kent, Corsicana; L. A. Cunningham, Corsicana; E. T. Fullwood, Corsicana; Sam D. Brooks, Corsicana; J. A. Lewis, Corsicana.

**Commissioner's Court.**  
 Routine matters were discussed by the county commissioners court at its regular meeting Monday morning.

The bond of S. A. Johnson, justice of the peace, Eureka, was approved.

Discussion concerning pending injunction proceedings in non-matters was held with W. W. Harris, attorney for the county in the J. F. McGee injunction on the Ward bridge road. It is expected that the injunction brought by E. M. Way, et al, prohibiting the starting of new construction will be dismissed.

Right of way claims and tax matters were discussed and claims allowed except as noted on the claim docket.

**Warranty Deeds.**  
 J. F. Byrd, et ux, to M. H. Woolf, 1.69 acres of the McGary survey, \$1 and other considerations.  
 Mrs. Angela Aldrich Altyn, et als, to L. C. Dockery, 35 acres of the James Wishart survey, \$500 and other considerations.  
 B. S. Limbaugh, et ux, to Fred Matlock, 30 acres of the Pedro Quero survey, \$1 and other considerations.

**Marriage Licenses.**  
 J. C. Turner and Vivian Hoffman.  
 J. V. Heflin and Mrs. Annie Barker.  
 Volley Douglas and Ella James Lynn.  
 William Odom and Annie Terrell.

**Tax Collector's Office.**  
 According to an announcement Monday, there had only been 1650 autos registered at the auto booth in the lobby of the courthouse, as compared with about 2000 at the same time in 1930.

In 1930, it will be remembered that considerable bad weather—including blizzards and snow—was encountered which deterred many in the county coming to pay taxes.

Those registering automobiles and other motor vehicles are urged to bring their 1930 receipts and 1931 headlight test certificates.

State Auditors Powell and Hamilton from Austin have completed their audits of the books of the tax collector's office for the years 1928 and 1929 and reported them in fine condition and compliance with the tax collector's personnel, Mrs. Joe Woods, tax collector, stated Monday.

**Justice Court.**  
 Judge W. W. Clifton fined one person on a charge of drunkenness and another on a charge of disturbing the peace during the weekend.

# **Rehearing Asked In Black Tom Case By American Agent**

WASHINGTON, Jan. 12.—(P)—A petition for rehearing of the famous Black Tom case was filed with the German-American claims commission today by Robert W. Bonnyne, American agent.

The case, involving a claim for \$200,000 for a fire during the war in the terminal of the Lehigh Valley railroad in New York harbor, was decided recently in favor of Germany by the commission.

The commission found there was not sufficient evidence presented to show the fire had been caused by German agents or spies. Today's petition did not embrace the case of a fire at the Kingsland plants of another company, involving a similar amount and which was simultaneously decided in favor of Germany by the commission.

# **HIGHWAY PAVING WORK EAST SEVENTH AVENUE PROGRESSES**

The 18-foot pavement from the old street pavement on East Seventh avenue to the city limits has almost been completed, according to W. W. McClendon, county engineer.

Only about 200 feet remains to be poured on this stretch of road on state highway 31. The pavement has been completed from the Burlington and Rock Island lines tracks (formerly T. and B. V. R. R.) to the city limits, and the remaining 200 feet will be poured as soon as the weather conditions permit.

Considerable work remains to be done on state highway 22, the Corsicana-Palestine road. Shouldering remains to be done on the road from Corsicana to the Three Way Filling station, and considerable dirt and drainage work remains on the road from the Three Way Filling station to the boundary line of consolidated road district No. 1 near Eureka.

The north one and one-fourth mile nine-foot lateral road out of Powell has been completed, about one-half mile of the south one and one-fourth mile lateral, nine-foot, has been finished. County Engineer McClendon stated Monday. This road will be finished as soon as possible.

# **Aged Negro Died Here On Saturday**

Walker Spillman, aged and well known negro, 89, who had been in the Jester family for 45 years, died in the P. and S. Hospital Saturday and was buried here Sunday afternoon.

The aged negro was a servant of the late George T. Jester for many years and drove the Victoria drawn by bob-tailed horses for Governor Jester 35 years ago.

Since the death of Governor Jester, the aged negro has been with the younger Jesters, Charles G. Jester and Beauford H. Jester. All of the old-time residents of Corsicana remember Spillman.

# **Army Officer Given Second Divorce Waco**

WACO, Jan. 12.—(P)—Lieut. Robert Duval Waring of Fort Robinson, Neb., today was granted a divorce from his first wife, Mrs. Hallie Hill Waring of Waco, by Judge D. W. Bartlett, after he had paid \$130 back alimony for support of their child. Attorneys caused by German agents or spies.

A former divorce obtained by Waring had been voided and the case reopened after he had remarried.

# **Infant Died Here Monday Morning**

The infant son of Mr. and Mrs. Henry E. Redden, 112 West Avenue G, died Monday morning at 7:30 and the funeral was held at Rice, Monday afternoon at four o'clock, where interment was made. The services were conducted by Rev. C. E. McStravik, pastor of the United Presbyterian church. The funeral was directed by the Sutherland Funeral Home.

# **PLANS TO COMBAT MALARIA MOSQUITO LAID BY STATE**

AUSTIN, Jan. 12.—(P)—The state health department was actively engaged today in discussing plans for combating the malarial mosquito in East Texas.

Conferring with Dr. J. H. Anderson, state health officer, and his assistants were Dr. J. A. Leprince, senior engineer of the United States public health service and for ten years engaged in the work of ridding the Panama canal zone of the malarial mosquito; Dr. C. P. Coogie, national malarialist, and Dr. W. Stanley, East Texas chamber of commerce representative, whose organization is asking for appropriations to carry on the fight against the malarial mosquito in the East Texas counties.

A bill which is to be introduced in the approaching legislature will call for \$50,000 per year for two years to be used in a fight to rid East Texas counties of malaria.

Dr. Le Prince characterized the expenditures for such a fight as "no expenses but investments."

# **Status Convicted Army Officer Was Asked By Hurley**

WASHINGTON, Jan. 12.—(P)—Secretary Hurley asked the judge advocate general's office today for an opinion on the status of Major Charles A. Shepard, recently convicted at Kansas City, Kansas, and sentenced to life imprisonment for the murder of his wife.

The request was made after he had been unofficially informed that Major Shepard had in effect resumed duty, pending an appeal from the sentence.

# **Baby Buried in Dresden Cemetery**

Joe Marshall Tatum, 26-day-old son of Mr. and Mrs. T. M. Titum of Barry, died in the Navarro Clinic Saturday afternoon at 4 o'clock following an operation a few days before, and the funeral was held at the Dresden cemetery Sunday afternoon at 2 o'clock where interment was made. The funeral was directed by the Sutherland Funeral Home.

# **MEN ENTOMBED BY CAVEIN OF TUNNEL RESCUED ALIVE**

OAKLAND, Calif., Jan. 12.—(P)—Entombed 800 feet underground nearly 30 hours before being res-

cued, 20 men rested today before going back to work in the treacherous Camp Mitchell tunnel of the San Francisco Hetch Hetchy water project.

Investigators were completing inquiries into the tunnel cave-in near Livermore, California, which trapped the men last Friday night.

Diminutive Oscar Nelson wormed his way out after 24 hours imprisonment through an opening too small to admit his companions. More than six hours later—early yesterday morning—the 39 others, coated with mud but unhurt, crawled from their subterranean prison.

**ROBBERS TAKE CAR.**  
 BIG SPRING, Jan. 12.—(P)—Loy Acuff, county tax collector, surrendered a single penny to two robbers last night, after he was forced to drive with the men 10 miles in the country, but they took his automobile.

## ACTING ON IMPULSE

One tremendous thing that the New Psychology has done for us is to free us from the subject domination of impulse. Instead of acting blindly on impulse, or being swayed entirely by feeling we now have at our command the four wheel brakes of self understanding, and are thereby able to save the personality machine from many a crash and smash up.

We must never lose sight of the fact that we are not out and out free moral agents acting deliberately and of choice, but rather are mechanisms acted upon by psychic forces arising within ourselves. We are the creatures of our complexions, and our conduct takes the direction they give it. But if we know our complexions then we have a certain choice in the matter.

Let us get in mind again the structure of a complex. A group of associated ideas held together by a strong feeling tone, and tending to influence thought and conduct in a definite and predictable direction. Idea plus feeling plus impulse to act is a ready working formula for the complex. The picture one must have in mind is of something essentially dynamic, a driving force always exerting its pressure, except for this mechanism we should be "dead ones!"

Feelings furnish the dynamics. Feelings give direction to the impulse. Therefore if results are not what we would like, it is feelings that must be summoned before the cur of the new psychology. Suppose today your feeling is one of irritability. The natural direction of your impulse would be to hit out at every one near you. Now I will admit that a certain relief of tension follows such conduct, for unrelieved feelings cause tension just as the drawn bow is in a condition of tension until it is released as the arrow speeds to the mark.

But our personalities are too complex to be run on such simple principles as hitting out blindly whenever we feel like it. When we have upset the apple cart in our own home by riling the cook's temper, sending Hubby off in a huff, denying Johnnie the apple he wanted, refusing the dog his

coveted romp and yanking the needles out of the complicated bit of knitting we had on hand, there is still something left to be desired.

Here is where psychology lets us down and at the same time saves our face. It helps us to look within ourselves for the cause of the irritability and to handle the matter impersonally. Suppose, for example, your feelings are ruffled because you have just played a poor hand at bridge or because your husband has said that your jokes were pointless; or suppose that for some sufficiently physical reason your chemistry is out of balance, with an excess secretion from the thyroid or some other endocrine gland spurring you on to ill-considered word or act.

You are to remember that the disordered chemistry will right itself in time; and before you know it your foolish pique will die down. Meantime, the self-understanding that psychology gives you sets the brakes to check your automatic response to impulse, and you have the chance to be your better self rather than simply a reflex mechanism.

Tomorrow—Replies to Readers.

## FIRST CONFERENCE COLLEGE TRAINING BETTER TEACHERS

H. D. FILLERS HAS IMPOR-  
TANT PLACE ON PROGRAM  
OF DENTON MEETING

DENTON, Jan. 12.—(Sp.)—The first Texas conference on college training of better teachers, sponsored by North Texas State Teachers college, will be initiated at Denton, February 23.

This two-day gathering for Texas educators is the first of a series to demand improved requirements for teachers of Texas youth. President R. L. Marquis stated Monday.

A fine cooperation between the public school people and our own teachers college staffs, added Dr. Marquis, "in this joint study of teachers training associations, different from work in other Texas colleges, is our great goal."

Superintendent Fillers of the Corsicana schools, leading the opening discussion on interpreting the new standards of Texas teachers colleges to the profession, Superintendent J. J. Hendricks of Keesee, described ways of continued training of Teachers now serving in the public schools.

Prominent Men on Program  
Schoolmen from Dallas, Fort Worth, Wichita Falls; superintendents of schools from Corsicana, Kerens and Sherman; college presidents, representatives of the state board of education, state department of education and University of Texas, will contribute to the conference program.

Business and the schools joining in still closer relations, will be stressed by Cameron Beck, personnel director for the New York stock exchange. Mr. Beck directs the school for all employees of the stock exchange in practical finance and other lines for promotion on the job.

Dr. Thomas Alexander, specialist from Columbia university, and Mr. Beck will address the closing conference dinner for Texas civic clubs Tuesday evening, February 23. R. T. Ellis, secretary of the State Teachers association, will present the movement for all-year schools.

Suggest Ways Betterment  
The superintendents will suggest ways of interpreting to Texas teachers and schools the advancing standards of Texas teachers colleges and each laboratory practice-school, in the opening session. Speakers will include President L. H. Hubbard, Texas State college for Women, J. C. Cochran, Mexia, president of the State Teachers association, and Dean E. F. Pittenger, University of Texas.

Helping young teachers to succeed in their first positions and preparing all teachers for community responsibilities outside the school, are the theme of the afternoon meeting. Professor Alexander that evening will contrast teacher training in Europe.

Feature of Tuesday Session  
Services to be rendered the public schools of Texas by the teachers colleges, special aid in solving practical school problems from their staffs, improving and further training of teachers now in service, will feature the Tuesday session.

Dr. Lorine Pruett, consulting psychologist from New York, will present the changing personality of the college girl who may be the future teacher. Mr. Beck will also talk on Youth—the beginning of right relations.

The afternoon gathering will emphasize wider use of student teaching. George M. Crutsinger, now engaged in research study of Texas teachers colleges, is local chairman of the conference.

Arrest Followed  
Alleged Attempt  
Pass Bad Check

Officers Nutt and Griffin arrested a 23-year-old while man Saturday afternoon after he is alleged to have attempted to have passed a forged check to Montgomery Ward for \$68 drawn on T. S. Clements.

According to police officials, the youth made a statement to them, and was then transferred to the county jail. His case was presented to the grand jury Monday morning.

RELIEF CANTEENS  
ARE ESTABLISHED  
IN MINING AREA

CARDIFF, Wales, Jan. 12.—(P)—Relief canteens are beginning to dot the Welsh valleys where the weekly pay envelopes of 150,000 miners have been missing on two paydays now because of the coal strike.

There have been a flood of applications for assistance from women and children and families in distress. No adequate funds are available to aid the men during the stoppage and unless decision in the pending test cases differ from precedent they will not be granted a dime.

It is the miners' contention that they are entitled to this recompense on the ground that the owners are attempting to keep them at work on illegal terms.

Shopkeepers met over the weekend and decided that due to the precarious conditions it would be impossible for them to extend over a week's credit for supplies.

## Drives Car Into New Orleans Basin Canal and Drowns

NEW ORLEANS, Jan. 12.—(P)—Joseph Whipple, 25, was drowned early today when, unfamiliar with a bridge approach and an intersection, he drove his automobile through a guard rail into the New Basin canal.

George Mosher, 30, of Shreveport, superintendent for the Texas Company, who was riding with Whipple, saved himself. The accident occurred at Carrollton avenue and the New Basin road. "How I got out of the car I don't know," Mosher said.

## FOUR MEN HANGED ON CONVICTION FOR MURDERING POLICE

POONA, India, Jan. 12.—(P)—Four men who were sentenced to death on conviction of murdering a policeman in the riots at Sholapur last May were hanged here today. The privy council recently rejected their appeal.

A small group of national sympathizers upon hearing of the execution started for Yeroda jail where Mahatma Gandhi is confined. They were dispersed with a charge of the police. Several were slightly injured.

All roads to the jail are being guarded.

Clashes Follow Hanings.  
BOMBAY, Jan. 12.—(P)—Violent clashes between police and nationalist sympathizers developed today when the nationalists attempted demonstrations of protest a hanging of four men convicted of murder of a Sholapur policeman during riots there last May.

A hartal, or stoppage of work, was decreed over the city. More than 12 nationalists were injured in attempting to enforce the stoppage and carry out the demonstrations.

Street cars and other vehicles were held up and officers forced to alight. A police commissioner arriving at the scene in a motor car was jeered and his car stoned. Three constables were surrounded by a crowd and compelled to remove their headgear as a mark of respect to the dead men.

Friendly members of the All Indian National Congress finally succeeded in helping the police restore order, although not before the police had charged them several times with their lathis or staves.

## Two Stolen Autos Recovered During Weekend By Police

Two automobiles stolen in Corsicana recently were recovered over the week-end by the police department.

An automobile owned by R. J. Jackson, which was stolen early in the week, was found Saturday morning in front of the residence of L. S. Clark at 614 West Third avenue where it had been abandoned during the night. It had been driven a number of miles, but was not stripped.

E. M. Polk, Jr., reported his car stolen Saturday on West Fifth avenue near the high school, and it was recovered Sunday by Officer Nutt on North Seventh street near the creek. It was in good condition.

## VETERINARIANS MEET.

WICHITA FALLS, Jan. 12.—(P)—About 100 veterinarians were here today to attend the eighth semi-annual convention of the State Association of Veterinarians of Texas. Dr. N. F. Williams of Fort Worth made report of the national convention, which he attended as a delegate from the Texas association.

THE NURSE'S CAREFUL  
ACCURACY  
in administering the medicine is matched by our carefulness and faithfulness in preparing the medicine as ordered by the doctor. Care is the watchword in our prescription work. We check and re-check each ingredient and quality. Safety first and profit afterward is the principle upon which we conduct this business.

ARE YOUR EYES ADJUSTED  
ONLY TO CLOSE-UPS?  
In your reading do you find it necessary to gradually hold your paper closer and closer to your eyes in order to see clearly. In doing so maybe you are under the impression that you are relieving eye-strain. As a matter of fact you are further distorting the retina every time you accustom your eyes to reading at closer than normal distance.

Come in now for examination.

## Expensive Camera Brings Arrest Of Mexican Bandit

MEXICO CITY, Jan. 12.—(P)—An attempt by Pedro Castro Morales, 24, to sell an expensive camera in Mexico City resulted in his arrest as one of the bandits who have been holding up tourists ascending the volcano Popocatepetl and Ixtaccihuatl.

Police investigated his ownership of such an instrument, since he said he was a charcoal burner at the foot of the two mountains, and identified the camera as belonging to Ricardo F. Miranda.

Miranda said it had been taken from him Dec. 7 by a gang of three men equipped with rifles and shotguns that waylaid his party on Ixtaccihuatl and took all their valuables.

Bandit gangs robbing tourists about the snowline of the two volcanoes have been giving officers considerable trouble.

## STEEG PLEADS FOR CO-OPERATION TWO GREAT NATIONS

PARIS, Jan. 12.—(P)—Theodore Steeg, premier of France, in an interview with the Associated Press today, urged economic and intellectual cooperation between France and the United States as a means of establishing and maintaining the peace and happiness of the world.

Tomorrow he goes before parliament, perhaps to begin a battle which will determine how long he will remain at the helm of the French ship of state.

"I have a deep affection for the republic of the United States," the premier said. "We have striven together so long for independence and liberty. In 1917, when I was minister of public instruction, I had many contacts with representatives of American universities, and I always have thought that the intellectual relations between our two nations should be closer. Having the same culture and sensibilities, we should unite our efforts to advance our scientific achievements and our artistic genius."

## LEGISLATURE OF ARKANSAS CONVENES NO DROUGHT RELIEF

LITTLE ROCK, Jan. 12.—(P)—The forty-eighth general assembly was called to convene in regular session today but there seemed little probability the state would be in a position to bear the burden of drought relief appropriations.

Governor Harvey Parnell, in a recent statement, indicated this, and the budget report prepared by the state auditor for presentation to the legislature revealed requests for funds already had doubled the normal income. Corrective measures dealing with the banking insurance have been announced by legislators, following the current collapse of more than 125 banks and two large insurance companies.

## DEMONSTRATIONS FOR EXTERMINATION OF SALAMANDERS

TEAGUE, Jan. 12.—(Sp.)—Demonstrations for the extermination of salamanders will be staged at various farms in the county next week. Mr. Spencer, who is in charge of the work, is in the employ of the Federal Department of Agriculture. The work is sponsored by the Teague Chamber of Commerce. Dates and places of demonstrations are as follows:

Jan. 12—Cochran's dairy farm at 9:00 a. m. J. T. Standifer's farm at 11:00 a. m. Bowen's farm at 2:30 p. m.

Jan. 13—J. M. Boatman, Dew road, 9:00 a. m. M. A. Johnson, Lanely, 11:00 a. m.; John Diggs, Salem, 2:30 p. m.

Jan. 14—Richard Smith, Simsboro 9:00 a. m.; Rufus Manning, Campbell's Branch, 11:00 a. m.; Bob Riley, Board Bottom, 2:30 p. m.

Jan. 15—Corley's dairy farm, 9 a. m.; C. B. Stewart, Stewart's

## Auto Crash Was Fatal to Houston Sales Manager

HOUSTON, Jan. 12.—(P)—Tovall Marston, 54, general sales manager for W. L. McAtee and Sons, was dead today, the victim of an automobile accident late yesterday.

In another mishap, Miss Selma Pardon, 19, lost her right arm. Dr. Karl F. Kurz, 24, of Newton, Kas., was driving the automobile which hit the Marston machine. Dr. Kurz stopped and remained until the body had been removed. He then reported to police.

He was charged with negligent homicide and released under \$500 bond. In a statement to an investigator for the district attorney he said the crash was unavoidable.

Mill, 11:00 a. m.; Frank Sims' farm at Fairfield 2:30 p. m.

Jan. 16—Open at 9:00 a. m.; Jim Jones, Ded road, 11:00 a. m.; J. R. Clemmons, Grove Island, 2:30 p. m.

A large crowd is expected to attend these demonstrations.

## INTERSCHOLASTIC LEAGUE FREESTONE COUNTY IN SESSION

TEAGUE, Jan. 12.—(Sp.)—Under the direction of director-general Supt. J. V. Porter of Kivren a meeting was held in Teague Saturday afternoon of all the directors of the different departments in the interscholastic league work of Freestone county.

A large number was present and much important business was attended to. The date of the county meet was set. Departing

radically from all past customs, two different week-ends were set for the holding of the meet. On Friday night, March 20, and Saturday, March 21, all literary events will be held, while a week later, on March 27, and 28, all athletic events will be held. All events will be held in Teague as Teague is the permanent home of the county meet.

Arrangements were made for awards and for judges of the literary events. Recommendations were made for early entrance of contestants.

J. V. Porter, director-general, Joe Dan Avinger, director of athletics, and Miss Mary Grace Lott, director of declamations, were appointed as a committee to arrange the detailed program.

## Did 1930 Tackle YOU For A Loss?

Never mind. Nobody wins every game. 1930 is as "past" as 1730. Throw in the 1931 gear. Make REASONABLE plans. Expect a lot. Really TRY to make them work out and 1930 will soon be forgotten.

We can be of MUCH SERVICE to you.

## CORSICANA NATIONAL BANK

CAPITAL AND SURPLUS HALF MILLION.  
Since 1887.

## Household Accounts

The Genius of Efficiency has invaded the household, as evidenced by the growing number of women who carry substantial checking accounts for the disbursement of household and personal funds.

BECAUSE such an account is a check upon unnecessary expenditures, a receipt for bills paid, and a record of all household expenses, we invite the accounts of those able to maintain substantial balances and who desire to avail themselves of this modern help to efficiency in the household.

## THE FIRST STATE BANK

CORSICANA, TEXAS

## How An Estate of \$100,000 Disappeared.

It is the story of a widow who was an indulgent mother to her two children. She financed their business undertakings until nothing of her fortune was left. And yet, with expert fiduciary service, the whole \$100,000 could have been saved.

Read this story in our booklet, see coupon below. Ask for a copy today.
